BYTESPEED ANNOUNCES ISO 9001:2008 AND 14001:2004 CERTIFICATION

[Moorhead, MN], January 14, 2014 – ByteSpeed, a leading manufacturer of Intel-based desktops, laptops, and servers, is proud to announce its ISO 9001:2008 and ISO 14001:2004 certifications.

ISO 9001:2008 is recognized worldwide as a quality management standard that focuses on customer satisfaction, continuous improvement, and the adoption of a process approach.

ISO 14001:2004 is internationally recognized for the environmental management of businesses, including the use of natural resources, handling and treatment of waste, and energy consumption.

Overall, these certifications mean ByteSpeed has demonstrated its commitment to enhancing customer quality and environmental responsibility for the configuration support, assembly, testing, and after sales service of custom-built desktops, laptops, netbooks, net tablets, and servers.

President Charles Homme said, "ByteSpeed has always focused on high quality products and outstanding customer service. Now that our certifications are complete, our customers and prospects can be even more confident that ByteSpeed manufactures and services its products to the highest standards of quality and performance."

About ISO
ISO (International Organization for Standardization) is the world's largest developer and publisher of International Standards. ISO International Standards ensure that products and services are safe, reliable and of good quality. For business, they are strategic tools that reduce costs by minimizing waste and errors and increasing productivity. They help companies to access new markets, level the playing field for developing countries and facilitate free and fair global trade. Learn more about ISO at iso.org.
