

The ByteSpeed t180W is a Windows Embedded OS based thin client computer. The ACS (Atrust Client Setup) software is also built in to help effective management of t180W. With the support of Citrix ICA/HDX, Microsoft RDP with RemoteFX and VMware Horizon View, t180W can be used to create virtual and session-based desktop experiences from many remote desktop capable operating systems. The t180W offers a rich computing experience where applications look, feel, and behave as local devices, including high-definition multimedia content.

The ByteSpeed t180W Thin Client includes a 5-year warranty and free lifetime tech support.
