

HTC VIVE Wireless Adapter

Compatible with the HTC Vive VR headset, the wireless adapter supports up to 20 x 20' (6 x 6m) play area, thanks to SteamVR's room-scale tracking technology. It is powered by Intel WiGig (802.11ad Wi-Fi), which requires installing the included PCIe WiGig card into a spare PCIe x1 slot. The easy-swap battery allows you to explore the full virtual range of your HTC Vive VR headset for up to 2.5 hours.

Bring real-world objects into your virtual world with the HTC VIVE Tracker. You can also use the VIVE Tracker to add real-world objects as specially designed accessories to play your favorite games. For example, you can attach the VIVE Tracker to a DSLR camera and put yourself in your own mixed reality videos.

HTC VIVE Foam Replacement 14mm

The HTC Vive Foam Replacement 14mm offers more comfort than stock and allows you to easily wipe clean your device between session. The soft, durable PU leather on this foam replacement is easy to clean with antibacterial wipes. Now with an updated design allowing more space for glasses users to fit their frames inside the headset.

Skin Friendly VR HMD Cleaning Wipes

Our antibacterial hygiene wipes kill 99.9% of germs without damaging your headset or reacting to your skin. The wipes are alcohol free, hypoallergenic and unscented making them perfect for use on foam replacements that come in to contact with your face.

VIVE Deluxe Audio Strap

The VIVE Deluxe Audio Strap features an adjustment dial in back. Comfort padding and improved weight distribution ensure comfort while wearing the headset during immersive gameplay. The VIVE Deluxe Audio Strap comes with integrated on-ear headphones that provide a more convenient experience in virtual reality.

Insta360 One R Twin Edition Camera
